

# For International students • Returnees School of Medicine Briefing

The International University of Health and Welfare, School of Medicine aims to nurture doctors who can play an active role in Japan and abroad by providing a state-of-the-art learning environment, including the world's largest 5,338 m2 Narita Simulation Center for Outstanding Professional Education (SCOPE). We will introduce our innovative medical education and the entrance examination for the 2024 academic year.
